

NPF AIRSOFT PRESENTS...

BATTLE FOR BLOOD ISLAND

2 CORPORATIONS
ANCIENT GROUND
MODERN WAR

A NEW AIRSOFT SKIRMISH SERIES

AN
NPF ORIGINAL

TWO CORPORATIONS : ANCIENT GROUND : MODERN WAR

A NEW
AIRSOFT
SKIRMISH
SERIES...

Two mega-corporations, **Axis Mining Federation** and **United Pacific Inc**, are vying for control of a newly- discovered landmass in the Pacific Ocean. **BLOOD ISLAND** - discovered just five years ago, is a treasure trove of ancient ruins, untouched jungles and immense mineral wealth, including rare earth resources - critical for modern technology.

Its strategic location also makes it a key to global trade routes. Both companies mask their motives for control behind the facade of "scientific exploration" and "sustainable development" but the reality is a high-stakes war for dominance.

A unique element of their conflict is the use of **Blood Dollars**, a currency system tied to their control of resources and successful operations on the island. These dollars can be spent on advanced commodities, strategic reinforcements, and tactical warfare like drone strikes and heli-drops.

Both corporations have set up advanced operations to harvest elements & minerals - converting rare earth resources and other materials into Blood dollars.

Axis Mining Federation CEO, Karl Kane and United Pacific Inc' CEO, Darius Wolfe give inspiring yet ruthless speeches to their inner circles, highlighting the stakes: control of Blood Island means control of the future!

This new immersive airsoft series will see players compete as part of the warring corporations - choose your faction ...**United Pacific Inc?** or **Axis Mining Federation**

Featuring classic airsoft skirmishes, mission objectives, domination battles and rolling series scores...this new skirmish series offers a hardcore battle for every type of player.

Battle during the AM session to score points for your corporation, via control of flag domination installations and mission objectives utilising all areas of the battlefield. Every point scored and mission achieved earns your corporation Blood Dollars!

After lunch - the PM session runs as a full **DOMINATION** battle - no missions. Just pure airsoft gunfights & skirmishes where every point scored counts!
